Surveillance Center

Why Choose BAYS Technologies Partner Program?

01

Easy Installations with Minimal Training

We understand the challenges of adopting new products, and the importance of providing training to your team. In homes with existing DSC/Honeywell devices, deploying BAYS Solutions is a breeze, only 10 minutes of online training will set your team up and installation takes only a few minutes.

02

Lowered Market Entry Barrier with End-to-End Solution supported by BAYS Monitoring Center

BAYS offers not only HW/SW, but also alarm and video surveillance services to partners and their clients to close the loop, with BAYS cost-effective 24/7 monitoring center, BAYS reduces the business entry barrier for Security Service Providers.

03

Customization

BAYS smart security solutions are designed to keep you in control and allow you to configure your services based on what works best for your specific clientele.

04

Hassle Free Service Updates

BAYS understands the impact of return trips when it comes to HW/SW and service updates, so we offer Free Remote Programming, troubleshooting, and over-the-air firmware updates with our Gateways and Apps .

05

Strong Warranty

BAYS stands behind all manufactured products with an industry's best 2 years warranty, BAYS has local warehouse in North America for fast handling of RMA.

06

We Protect Your Investments

BAYS builds future oriented products and solutions to avoid costly cellular sunsets. BAYS uses core components that are not only compatible with DSC/Honeywell devices but also support a variety of IoT protocols like LTE, Lora and Zigbee.
